5000 Smoke Alarm
Firex®
Benefits
• Latching LED
• Visible Low Battery Indicator
• Front Loading Battery Door
• False Alarm Control
• Latching LED
• AC/Battery Backup
• Maximum Interconnect: 18
Features
• Ramp-Up Test Horn
• Large, Easy to Use Push-to-Test Button
• Attractive, Low-Profile Design
• 10 Year Warranty

AC Ionization Smoke Alarms
Firex®

Benefits
• AC/Battery Backup
• Maximum Interconnect: 18
Features
• False Alarm Control™ — Quiets Unwanted Alarms For up to 15 Minutes
• Factory Sealed Housing — Prevents Tampering and Provides Outstanding Durability
• Interconnects with Other Firex Smoke Alarms and Heat Alarms — Compatible with Other Contractor Preferred Firex Products

Lithium DC Ionization
Firex®
Benefits
• False Alarm Control
• Lighted Power/Alarm LED Indicator
• Low Battery Signal
Features
• Sealed Enclosure
• One Time Activation Switch
• Maximum Interconnect: 12
• Tamper-Resistant
• Deactivation Connector to Turn Off at the End of 10 Year Service Life

Photoelectric Smoke Alarms
Firex®

Benefits
• AC/DC Powered with Battery Backup
• Maximum Interconnect: 18

DC Ionization
Firex®
Benefits
• Dual Ionization Smoke Sensing Chamber
• Incorporates Firex Installer-Focused Innovations
• Factory Sealed Housing
• Maximum Interconnect: 1

General Use Smoke Alarm
BRK Electronics®
Features
• Ionization Sensor
• Battery Power Indicator
• Low Battery Warning “Chirp”
• Missing Battery Tab
• Hinged Cover for Easy Battery Replacement
• 9V Battery Included
• 10-Year Limited Warranty on Alarm

Prices on request ■ 1-800-GRAYBAR ■ www.graybar.com

**Ionization AC Powered Smoke Alarm**

BRK Electronics®

Features
- 120V AC; Interconnectable
- Latching Alarm Indicator
- Smart Technology
- Single Button Test/Silence
- Perfect Mount System
- Mounting Bracket Lock
- Dust Cover
- 10 Year Limited Warranty

**Smoke Alarm for Hearing Impaired**

BRK Electronics®

Benefits
- Meets Requirements of the Americans with Disabilities Act

Features
- Ionization Sensor
- 177 Candela Strobe Light
- Quick Plug-In Power Connector
- 120V AC; Interconnectable
- AC Power Indicator
- 10-Year Limited Warranty On Alarm

**Heat Alarms**

BRK Electronics®

Features
- 120V AC/DC with 9V Battery Backup
- 135°F Fixed Rate and Rate-of-Rise Temperature Sensing
- Microprocessor Controlled
- IR Remote Control Test/Silence
- Latching Alarm Indication
- Interconnectable to a Maximum of 18 BRK Alarms and Relays
- 85dB horn
- Meets UL Requirements

**Heat Detector**

Firex®

Benefits
- Maximum Interconnect: 18
- Power Supply: AC/DC

Features
- Alarm Triggered at 135°
- 9V Battery Backup
- Interconnectable With Firex Smoke, CO Detector

**AC Powered Carbon Monoxide Alarm with Battery Back-Up**

BRK Electronics®

Benefits
- Quick Plug-In Power Connector
- 120V AC; Interconnectable
- Latching Alarm Indicator
- Smart Interconnect
- Battery Drawer Lock
- Mounting Bracket Lock
- Swing-Open Battery Door
- Can Be Interconnected with up to 11 Additional Smoke or CO Alarms
- Silence Feature
- AC Power Indicator

Features
- Test/Silence Button
- Low Battery Warning
- Missing Battery Tab
- 9V Battery Included
- 5-Year Limited Warranty on Alarm

---

Graybar provides emergency service 24 hours a day, seven days a week. Call us at 1-800-GRAYBAR and we’ll help you handle those unexpected emergencies.

**AC Powered Carbon Monoxide Alarm with Battery Backup and Digital Display**

BRK Electronics®

**Benefits**
- Quick Plug-In Power Connector
- 120V AC, Interconnectable
- Low Battery Warning
- Latching Alarm Indicator
- Smart Interconnect
- Microprocessor Controlled for Fewer Nuisance Alarms
- Single Button Test/Silence/Scroll
- Battery Drawer Lock
- Mounting Bracket Lock
- Battery Backup

**Features**
- Missing Battery Tab
- 9V Battery Included
- 5-Year Limited Warranty on Alarm
- Peak Memory Remembers and Displays Highest CO Levels Detected
- Alarm Latching Identifies and Remembers Which Unit in an Interconnected Series Initiated an Alarm

**AC Powered Smoke/CO Combo**

BRK Electronics®

**Benefits**
- Battery Backup
- Quick Plug-In Power Connector
- 120V AC, Interconnectable
- Ionization Smoke Sensor
- Microprocessor Controlled for Fewer Nuisance Alarms
- Low Battery and Nuisance Alarm Silence
- Auto-Self Testing
- Latching Alarm Indicator
- Smart Interconnect
- Separate Smoke & CO Visual and Audible Warnings

**Features**
- Mounting Bracket Lock
- Low Battery Warning
- Missing Battery Tab
- Battery Drawer Lock

### Edwards electromagnetic door holders are high quality devices designed to be used on self-closing, swinging doors to automatically isolate an area when activated by fire alarm, smoke detection or sprinkler systems.

**Features**
- Die Cast Metal Construction
- Powder Epoxy Aluminum Finish
- Mounting Hardware Included
- UL Listed, FM Approved
- 25 lb Minimum Holding Force

### Genesis® Horns, Strobes & Horn/Strobes

**Edwards Signaling and Security Systems**

The Genesis line of signals are the smallest, most compact audible and visible emergency signaling devices in the world. Mount to any standard one-gang surface or flush electrical box.

**Features**
- Unique Low-Profile Design
- White Finish
- Ultra-Slim - Protrudes Less Than One Inch from Wall
- High (Default) or Low db Horn
- Temporal (Default) or Steady Horn
- Public Mode Flash Rate (Default) or Private Mode Temporal Flash
- UL 1971 Listed; UL 464; ULC S526; CSFM; FM Approved

Fire Alarm Pull Station
Edwards Signaling and Security Systems
The 270 Series fire alarm pull station is for fire alarm installation in schools, hospitals, factories and industrial locations.
Features
• Die Cast Metal Construction
• Terminal Strip Wiring
• Break Glass Type
• Single Action
• UL Listed
• CSFM Listed

AdaptaBuzzer™ AC Buzzers
Edwards Signaling and Security Systems
Heavy-duty buzzer for indoor applications. Used for timing, scheduling and paging applications. Use where ever a relatively low decibel signal of a different tone is required.
Features
• Plug-In Type
• Ac Models Are Volume Adjustable
• Universal Adaptaplate® Mounts Directly on Surface or Electrical Box
• Corrosion Resistant Heat Flowed Epoxy Finish
• UL 464 Listed & FM Approved

FireShield™ Fire Alarm Control System
Edwards Signaling and Security Systems
Features
• 1, 3, 5, or 10 Class B Initiating Device Circuits (IDC)
• 2 or 4 Class B Notification Appliance Circuits
• IDC or NAC Pairs Convertible to Single Class A Circuits (10 and 5 IDC Panels only)
• Zone Programmable NAC’s Selectable for Genesis
• Genesis Option Provides Strobe Sync and Audible Silence over 2 Wires
• Supports 2400, ED2M and SC Series Detectors
• Relays for Alarm, Supervisory and Trouble Conditions
• 120V AC
• Red Finish
• UL Listed

AdaptaBuzzer™ AC Vibrating Bells
Edwards Signaling and Security Systems
AC vibrating bells produce a long continuous ringing sound. the striker continues to strike the gong in rapid-fire action as long as current is applied. Specified for timing, scheduling, paging and general alarm applications.
Features
• Universal Adaptaplate Mounts Directly on Surface or Electrical Box
• Weatherproof by Adding Appropriate Back Box
• Completely Assembled, All Hardware Supplied
• Shockproof Die Cast Housing
• Dustproof
• UL 464 & CSFM Listed, FM Approved

AdaptaHorn® Grille Type Vibrating Horn
Edwards Signaling and Security Systems
The 874 Series are low-current, high decibel surface mount vibrating horns for heavy-duty use. Supplied complete with Adaptaplate® for easy installation. Mountable on any single gang box, or 3/4 in., 3 1/2 in., or 4 in. octagon or square box. Projects only 2 in. from mounting surface.
Features
• PLC Compatible Models
• Corrosion Resistant Finish
• Volume Adjustable
• Completely Assembled
• UL Listed & FM Approved
• 103 dB @ 10 ft.

AdaptaHorn® Panel Mount Vibrating Horn
Edwards Signaling and Security Systems
The 870P Series are low current, high decibel panel mount vibrating horns for heavy-duty use. Designed for panel mounting or installation on a 4 in. square box. Becomes weatherproof when installed with supplied gasket.
Features
• PLC Compatible Models
• Corrosion Resistant Finish
• Volume Adjustable
• Completely Assembled
• NEMA Type 4X Rated & UL Listed
• 103 dB @ 10 ft.

AdaptaHorn® Grille Weatherproof Type
Edwards Signaling and Security Systems
Die cast weatherproof box comes completely assembled to speed installation. Mounts on conduit or any flat surface. Top hole drilled and tapped for 1/4 in. - 14 NPT. Knockouts are located on bottom and rear of the unit.
Features
• PLC Compatible Models
• Corrosion Resistant Finish
• Volume Adjustable
• Completely Assembled
• UL Listed & FM Approved
• NEMA 4X Enclosure
• 103 dB @ 10 ft. (877-G1 is 101 dB @ 10 ft.)

AdaptaHorn® Grille Type Multiple Tone Signal
Edwards Signaling and Security Systems
The 5530M Series is a heavy-duty industrial, tone-selectable, signaling device capable of producing volume-controlled, high-decibel tones. Typical applications include emergency warning systems, plant evacuation and security intrusion alarms.
Features
• 27 Tone Capability - No Additional Tone Models Needed
• PLC Compatible
• Suitable for Division 2 Locations
• NEMA Type 3R
• UL 464 and 1604 Listed
• Class I, Groups F & G; and Class III Hazardous Locs Div 2, Groups A, B, C & D; Class II Div 2
• 110 dB @ 10 ft.

Duotronic® Horns and Sirens
Edwards Signaling and Security Systems
The 5520 Series is low current, high performance, high decibel signals which may be coded or used as a continuous alarm. Designed to function as either a horn or siren by setting an internal, tamper-proof switch.
Features
• Weatherproofed by Adding 349 Backbox
• Easy Adaptaplate Installation
• UL 464 Listed & FM Approved
• 114 dB @ 10 ft.

Resonating Horn
Federal Signal Corp.
Benefits
• Indoor or Outdoor Use
• Rugged Design Keeps Out Corrosive Dust and Vapors, Requiring Minimal Maintenance
• Diaphragm Resonates a Column of Air – Louder than the Vibrating Horn
• Cast Aluminum Housing with Brass Projector. Finished in Gray Enamel
• Frequency of Vibrating Diaphragm Produces a Smooth, Musical Quality Tone very much like that of an Air Horn
• 1/4 in. Conduit Mounting; Swivel Bracket Included—Must be Mounted in Strict Accordance with the Instructions
• Duty Cycle of 5 Minutes On and 5 Minutes Off. Customers with Applications that may Require Longer Duty Cycles Should Consider Electronic or Solid State Products like the Selectone®
• 105 dB @ 10 ft.

AdaptaHorn® Millennium Multiple Tone Signal
Edwards Signaling and Security Systems
The 5530M Series is a heavy-duty industrial, tone-selectable, signaling device capable of producing volume-controlled, high-decibel tones. Typical applications include emergency warning systems, plant evacuation and security intrusion alarms.
Features
• 27 Tone Capability - No Additional Tone Models Needed
• PLC Compatible
• Suitable for Division 2 Locations
• NEMA Type 3R
• UL 464 and 1604 Listed
• Class I, Groups F & G; and Class III Hazardous Locs Div 2, Groups A, B, C & D; Class II Div 2
• 110 dB @ 10 ft.

### SelecTone® Audible Signaling Device
**Federal Signal Corp.**  
**Features**  
- The 300GC and 302GC are Speaker/Amplifiers with Built in Gain Control  
- UL Listed, and CSA Approved for Indoor or Outdoor Use  
- The X Class I Division 2 Environments  
- 302 Series is 30W at 120V AC  
- Combined or Stand Alone Applications  
- 300 GC - 120 is 15W at 120V AC  
- 300 GCX - 120 is 15W  
- 110 dB @ 10 ft. (302GC Series: 114 dB @ 10 ft.)

### Litestak® Sound Module
**Federal Signal Corp.**  
Modular unit attaches to any Litestak™ configuration of up to four colors. Can be used as a stand-alone audible device when used with one of the Litemast™ bases (model LSB-024-240 or LSBS). 18 different tones. Indoor-use only. These units are intended to be used in low ambient noise environments. Surface or 3/4 in. pipe mount.

### Litestak® Status Indicator Modules
**Federal Signal Corp.**  
Primary use is for status indication—indoor only. This unit is customer assembled by “plugging” one module onto the next, and ultimately on to one of the “Base Models”, LSB-120, LSB-024-240V. The top cap is supplied with the base, and the lenses are included with the various LSL models. Wiring is accomplished by using the wires provided with the base model. Color-coded wires correspond to a specific colored LSL module no matter where it is located in the stack.  

**Benefits**  
- Ideal Applications are Assembly or Conveyer Lines, Instrument Panels and Work-Cell Areas  
- No Hot Spot. We Designed the Product for the Complete Lens to be Filled with Light, and therefore has a Greater Visible Area to be Seen by the Intended Party

### Vibratone Horn
**Federal Signal Corp.**  
**Benefits**  
- Vibrating Horn Capable of Reproducing Coded Blasts or Sustained Tones.  
- Excellent for General Alarm, Start/Dismissal, Coded Paging, Process Control Signaling in High dB Areas  
- Compact Size (4 x 4 x 2 1/2, in.)  
- Model 350, 120 AC  
- Model 450, 24 DC  
- NB Back Box for Indoor, WB for Outdoor  
- Housing is Made of Die-Cast Zinc with Gray Enamel Finish. Model 350 has Black Finish is Also Available - Model 350-120-30B

### 27XST Explosion-Proof Strobe Light

**Federal Signal Corp.**

The Model 27XST Series C explosion-proof strobe light is UL listed for explosion-proof (UL844) and marine (UL595) locations. It is also listed for Class I, Division 1, Group C and D; Class II, Division 2, Groups A, B, C and D; and Class III. All exposed hardware is 316-Grade Stainless Steel.

Benefits:
- The 27XST is NEMA 4X Rated and is constructed to IP66 Specifications. Also CSA Approved.
- This Product has a Corrosion Resistance Powder Epoxy Finish Applied over the Copper-Free Aluminum Housing. All exposed hardware is 316-Grade Stainless Steel.
- This Explosion-Proof Warning Light comes standard in a Pendant Mount for 1/2 in. NPT Threaded Pipe. Mounting options are available for Ceiling and Wall Mounting. A Dome Guard is also available — Model DGXC for Ceiling Mount.
- The Model 27XST Strobe Light Provides 80 High Intensity Flashes per Minute.
- The unique electrical contact block allows for wiring of the mounting portion upon installation. After the electrical connection is made, the light fixture is simply screwed into the mount. Once five revolutions are made, electrical contact is complete. This allows for ease of installation and maintenance.
- Supply Voltage: 120V AC, 50/60 Hz

#### Mfg. No. Graybar ID Lens Color Lamp Type
- 27XST-120ASC 93160423 Amber Strobe Tube
- 27XST-120BSC 93160424 Blue Strobe Tube

- 27XST-120RSC 93160425 Red Strobe Tube

### AV1ST Strobe Combination Audible/Visual Signal

**Federal Signal Corp.**

An economical combination audible/visual signal with many applications.

Benefits:
- NEMA 3R Rated for Rain Tight Applications
- Black Base will accommodate mounting to a 1/2 in. pipe, a four inch octagon electrical box or any flat surface
- Surface Mount Gasket serves as a template for preparing a flat surface with appropriate mounting holes. Mounting Pattern is identical to the Edwards Model 51
- Unique Detent Twist on lens design allows for tool free access to the 25W incandescent lamp
- Fresnel lens in five available colors provides superior visibility in all directions
- Sounder is synchronized to buzz at same rate as the visual signal — 75 times per minute
- Factory assembled with two color coded leads. The user can remove the leads and supply connections to the terminal block located in the base of the unit
- The horn is mounted inside the metal base and is rated at 85dB at 10 ft. The horn is rated at 85dB outside of the housing. Inside the light, the horn only produces 71dB
- Supply Voltage: 120V AC, 50/60 Hz

### AdaptaBeacon® Adverse Location Signal

**Edwards Signaling and Security Systems**

The 105 Series are heavy duty beacons designed for use in industrial applications where a corrosion resistant Type 4X enclosure is required.

Features:
- Corrosion Resistant
- Multiple Light Sources - Steady-On LED, 3 Joule Strobe
- Lamp Rating - 100,000 Hours for LED; 3,000 Hours for Strobe
- Type 4X, Marine Rated, Div. 2, UL 1971 Listed Model
- UL 1638 and 1604 Listed
- Supply Voltage: 120V AC

Accessories - Order Separately
- 105PM - Pipe Mount
- 105BX - Mounting Box
- 105BM - Mounting Bracket

### AV1ST Strobe Combination Audible/Visual Signal

**Federal Signal Corp.**

An economical combination audible/visual signal with many applications.

Benefits:
- NEMA 3R Rated for Rain Tight Applications
- Black Base will accommodate mounting to a 1/2 in. pipe, a four inch octagon electrical box or any flat surface
- Surface Mount Gasket serves as a template for preparing a flat surface with appropriate mounting holes. Mounting Pattern is identical to the Edwards Model 51
- Unique Detent Twist on lens design allows for tool free access to the 25W incandescent lamp
- Fresnel lens in five available colors provides superior visibility in all directions
- Sounder is synchronized to buzz at same rate as the visual signal — 75 times per minute
- Factory assembled with two color coded leads. The user can remove the leads and supply connections to the terminal block located in the base of the unit
- The horn is mounted inside the metal base and is rated at 85dB at 10 ft. The horn is rated at 85dB outside of the housing. Inside the light, the horn only produces 71dB
- Supply Voltage: 120V AC, 50/60 Hz

### 27XST Explosion-Proof Strobe Light

**Federal Signal Corp.**

The Model 27XST Series C explosion-proof strobe light is UL listed for explosion-proof (UL844) and marine (UL595) locations. It is also listed for Class I, Division 1, Group C and D; Class I, Division 2, Groups A, B, C and D; Class II, Division 1 and 2, Groups E, F and G; and Class III. All exposed hardware is 316-Grade Stainless Steel.

Benefits:
- The 27XST is NEMA 4X Rated and is constructed to IP66 Specifications. Also CSA Approved.
- This Product has a Corrosion Resistance Powder Epoxy Finish Applied over the Copper-Free Aluminum Housing. All exposed hardware is 316-Grade Stainless Steel.
- This Explosion-Proof Warning Light comes standard in a Pendant Mount for 1/2 in. NPT Threaded Pipe. Mounting options are available for Ceiling and Wall Mounting. A Dome Guard is also available — Model DGXC for Ceiling Mount.
- The Model 27XST Strobe Light Provides 80 High Intensity Flashes per Minute.
- The Unique Electrical Contact Block allows for wiring of the mounting portion upon installation. After the electrical connection is made, the light fixture is simply screwed into the mount. Once five revolutions are made, electrical contact is complete. This allows for ease of installation and maintenance.
- Supply Voltage: 120V AC, 50/60 Hz

#### Mfg. No. Graybar ID Lens Color Lamp Type

### AdaptaBeacon® Adverse Location Signal

**Edwards Signaling and Security Systems**

The 105 Series are heavy duty beacons designed for use in industrial applications where a corrosion resistant Type 4X enclosure is required.

Features:
- Corrosion Resistant
- Multiple Light Sources - Steady-On LED, 3 Joule Strobe
- Lamp Rating - 100,000 Hours for LED; 3,000 Hours for Strobe
- Type 4X, Marine Rated, Div. 2, UL 1971 Listed Model
- UL 1638 and 1604 Listed
- Supply Voltage: 120V AC

Accessories - Order Separately
- 105PM - Pipe Mount
- 105BX - Mounting Box
- 105BM - Mounting Bracket

### AV1ST Strobe Combination Audible/Visual Signal

**Federal Signal Corp.**

An economical combination audible/visual signal with many applications.

Benefits:
- NEMA 3R Rated for Rain Tight Applications
- Black Base will accommodate mounting to a 1/2 in. pipe, a four inch octagon electrical box or any flat surface
- Surface Mount Gasket serves as a template for preparing a flat surface with appropriate mounting holes. Mounting Pattern is identical to the Edwards Model 51
- Unique Detent Twist on lens design allows for tool free access to the 25W incandescent lamp
- Fresnel lens in five available colors provides superior visibility in all directions
- Sounder is synchronized to buzz at same rate as the visual signal — 75 times per minute
- Factory assembled with two color coded leads. The user can remove the leads and supply connections to the terminal block located in the base of the unit
- The horn is mounted inside the metal base and is rated at 85dB at 10 ft. The horn is rated at 85dB outside of the housing. Inside the light, the horn only produces 71dB
- Supply Voltage: 120V AC, 50/60 Hz

AdaptaBeacon® Lights
Edwards Signaling and Security Systems

Series 50, 51 and 52 lights are designed to provide a bright visual indication using special optics within a shatter resistant polycarbonate lens.

Features
- Weatherproof
- Cast Base Can Be Used as a Junction Box
- UL 1638 Listed
- CSA Certified C22.2 No. 205
- 50 & 51 Series Are PLC Compatible
- 51 Series Internal Base Mounted Horn Rated at 85 dB at 10 ft.
- 52 Series Rotates at 75 Revolutions Per Minute
- Supply Voltage: 120V AC

AdaptaBeacon® Strobes
Edwards Signaling and Security Systems

The 104ST Series are designed for light duty applications where short term intermittent visual signaling is required. Edwards strobe lights are particularly effective in high noise areas where ear protection must be worn and audible signals may not be heard.

Features
- NEMA Type 4X
- Panel or Conduit Mounted
- 300,000 Peak Candela
- 120,000 Hour Light Source
- Immune to Shock and Vibration
- UL 1638 Listed

Chameleon™ LED Multi-Status Indicator
Edwards Signaling and Security Systems

The 103 Series functions as a steady or flashing visual signal. The Chameleon is designed to flash any one or all three lights activated by a PLC. Edwards long life multi-status visual indicators are ideal for use where smaller lights are specified and multi status indication is required.

Features
- Weatherproof
- 3 Visual Signals in One Compact Housing
- Multiple LED Clusters in Red, Green and Amber or Red, Blue and Amber
- 120,000 Hour Light Source
- Panel or Conduit Mounted
- UL Listed NEMA Type 4X
- UL 1638 Listed

Commander® Rotating Warning Light
Federal Signal Corp.

A powerful rotating light mounted to a pivoting yoke allowing the light beam to be adjusted through 90° from horizontal to vertical.

Benefits
- Recommended for Heavy Duty Industrial Applications where Ambient Noise Levels Reduce Effectiveness of Audible Signals
- Excellent on Cranes, Process Control Monitoring or any other Area that Requires a Highly Durable and Dependable Warning Light
- Utilizes Motor Cooling Fan and External Cooling Fins
- Model 371 Features a High Temperature-Resistant Glass Dome and 200W Sealed Beam
- Both Products are Designed to be Surface Mounted, or One Inch Pipe Mounted. An Optional Surface Mounting Plate Allows for Side Entry of Wiring when Mounted on a Solid Surface (i.e. Brick Wall with no Opportunity for Wiring to be Passed Through the Bottom Hole of Fixture). An Optional Shock Mount Kit is Available for Severe Operating Conditions
- Supply Voltage: 120V AC, 50/60 Hz

**Electraflash® Strobe Warning Light**

Federal Signal Corp.

The Model 141ST Strobe Light is an affordable visual signal which is suited for light-duty use. Unit is less than 6 in. high and 6 in. in diameter.

**Benefits**
- Rated for NEMA 3R Applications, which means that the Enclosure is Protected Against Rain – when mounted upright
- UL Listed and CSA Approved
- There are Two Mounting Configurations, Surface and 1/2 in. Pipe Mount
- 120V AC

**Electray® Rotating Warning Light**

Federal Signal Corp.

A very economical rotating light. By simply removing a single screw, the dome can be removed by pushing down and twisting for inspection and relamping.

**Benefits**
- An Injection-Molded Reflector Rotates Around a 25W Bayonet Lamp Producing 90 Flashes per Minute
- Basic Warning Light for Calling Attention to Emergency Situations or Process Control Changes. The 4X Enclosure is a Key Feature
- Supply Voltage: 120V AC 50/60 Hz

**Electray® Hazardous Location Strobe Warning Light**

Federal Signal Corp.

The Model 225XST “Electray” is a powerful strobe light designed for use in areas electrically classified as hazardous, and provides 80 high intensity flashes per minute.

**Benefits**
- UL Listed as Meeting NEMA 4X Enclosure Requirements
- Effective Candlepower of 240 Candelas and 580,000 Peak Candlepower
- UL Listed and CSA Approved for Class I, Division 2, Groups A, B, C and D; Class II, Division 2, Groups F and G; and Class III
- Has a High Intensity Strobe Tube with an Expected Life of 10,000 Hours
- The Smooth Dome on the Exterior of this Unit Gives this Strobe Light the Ability to Shed Air Borne Dust and Dirt
- Supply Voltage: 120V AC, 50/60 Hz

**Fireball® Strobe Warning Light**

Federal Signal Corp.

The Model FB2PST Strobe Light is compact with a high-intensity light output. This unit is used in a wide range of stationary applications.

**Benefits**
- Rated for NEMA 4X Applications
- Integrated 1/2 in. Pipe and Surface Mount
- Additional Mounting Options are Wall (LWMB2) or Corner (LCMB2) with the Appropriate Bracket
- Provides One Million Peak Candlepower
- Very Low Maintenance Warning Light for Industrial use where a Vibration-Resistant Light is Required
- Available in Amber, Blue, Clear, Green or Red
- Supply Voltage: 120V AC, 50/60 Hz

Hazardous Location Warning Light

Federal Signal Corp.

The Model 151XST is a rugged designed strobe light suitable for areas electrically classified as hazardous.

Benefits
• UL Listed and CSA Approved for Class I, Division 2, Group A, B, C and D; Class II, Division 1 and 2, Groups E, F, and G; and Class III
• UL Tested to Meet NEMA 4X Enclosure Specifications and is Constructed to IP66 Standards
• Listed for Marine Use (UL595)
• A Dome Guard is Standard with this product
• Provided with a Strobe Tube with an Effective Candlepower (ECP) of 165
• Listed for Marine Use (UL595)
• UL Tested to Meet NEMA 4X Enclosure Specifications
• UL Listed and CSA Approved for Class I, Division 2, Group A, B, C and D; Class II, Division 1 and 2, Groups E, F, and G; and Class III

Starfire® Strobe Warning Light

Federal Signal Corp.

The Model 131ST/DST Strobe Light, “Starfire”, Strobe warning light is our brightest medium duty strobe. Available in both a single and double flash version, the double flash unit (DST) produces 1,200 effective candlepower and the single flash unit (ST) produces 1,000 effective candlepower.

Benefits
• NEMA 3R Rated, UL Listed & CSA Approved
• The Strobe Flash Tube is Mounted in an Eight-Pin Octal Socket Base and is Resistant to Vibration and Harsh Environmental Conditions
• Can also be/ in. Pipe Mounted, and with Optional Mounting Brackets for Corner and Wall Installations
• Supply Voltage: 120V AC, 50/60 Hz

Streamline® Low Profile Strobe Light

Federal Signal Corp.

The Model LP3 is a low profile product that provides excellent illumination for numerous applications in all types of industrial and commercial areas. It requires minimum space on panels and enclosures. The LP3 enclosure is a NEMA 4X product suitable for hose-down areas, corrosive environments, and outdoor applications. Exceptions to the 4X enclosure are the LP3E which is NEMA 3R (because of the Edison lamp base) and the LP3T in the 12-48 volt version (because the power leads extend out the side of the fixture).

Benefits
• There are Five Mounting Configurations for this Product:
  • Utilizes a Linear Strobe Tube and Provides 175,000 Peak Candlepower
  • Supply Voltage: 120V AC, 50/60 Hz

Graybar has branches all across North America. To reach the branch nearest you call 1-800-GRAYBAR (479-2277).
### VALS Visalert® Strobe Light

Federal Signal Corp.

VALS “Visalert” Strobe Light is a three dimensional, triangular warning light designed to be a free-standing strobe light. It can also be mounted on either a Federal Signal model 350 “Vibratone” horn or a Federal Signal model 50GC “Selectone” speaker/amplifier. It is ideal where a low intensity, small strobe is required. Ideal for OEM applications needing a visual signal.

**Benefits**
- Uses a Linear Strobe Tube and all Circuitry is Contained within the Lens. The Strobe is Replaceable and is Rated for 4000 Hours
- Knockouts on the Model 50GC and the Model 350 Audible Devices Make for Easy Mounting and Wiring
- UL Listed, CSA Approved and Meets NEMA Type 3R Requirements. It is Constructed to IP44 Requirements
- Supply Voltage: 120VAC, 50/60 Hz

### Vitalite® Rotating Warning Light

Federal Signal Corp.

This economical rotating light utilizing a long life 40W incandescent lamp with a twist and lock base. The lamp socket is electrically insulated for greater safety, and is Federal’s most popular light.

**Benefits**
- Twist and Lock Dome which Allows for Fast and Easy Access to Inspect and Change the Lamp
- Has a High Quality Syncron Clock Motor which Drives a Parabolic Reflector Around the Stationary Lamp Producing 60 Flashes per Minute
- Used for Emergency Warning or Status Indication in High Ambient Noise Level Areas
- UL Listed, CSA Pending, Type 4X, IP66 Enclosure. Pipe or Surface Mount
- Supply Voltage 120V AC, 50/60 Hz

## Electronic Time Switches

**Intermatic, Inc.**

Electronic time switches provide to-the-minute programming for 7-day or full year load control and reduced energy costs.

**Features**
- Selectable Clock Format 12 and 24 hrs. For Programming 400 Set Points
- Each On and Off Switching Function Uses a Set Point
- Full Year Control Features Include up to 99 Different “Holidays” can be Programmed
- Minimum Time Setting: 1 min
- Maximum On/Off Cycles: 400 Set Points
- Color: Gray

## Electronic Time Switches

**Intermatic, Inc.**

Electronic time switches provide the same dependable and uncomplicated performance as mechanical time switches. Programming for accurate load control and reduced energy cost.

**Features**
- Time Setting and Programming Using 2 Slide Switches and 4 Push Buttons
- Up to 8 Set Points or Events can be Preset for Automatic Daily Repeat
- Program can be Overridden at any Time Using the Manual Selector Switch
- Minimum Time Setting: 1 min
- Maximum On/Off Cycles: 8 On 8 Off
- Color: Gray

*Contact Type is DPST*
The right combination to lock out fire and water

3M™ Fire Barrier Water Tight Silicone Sealants provide the ultimate in firestop protection with the new added benefit of preventing water or moisture intrusion — offering owners, architects and contractors a cost-effective, proactive means for dealing with the potentially harmful affects of fire, smoke, water and moisture. These silicone sealants represent the first firestopping systems to meet the new UL requirements* for water tightness when used on floor penetrations.

* New UL Water Leakage Test, W Rating - Class 1 requirements for systems tested and listed in accordance with UL 1479.

Effective and easy to install, 3M Fire Barrier Water Tight Silicone Sealants are available in three formulas:

- **1000 NS**: Non-slumping silicone with a UL firestop rating up to three hours
- **1003 SL**: Self-leveling silicone with a UL firestop rating up to three hours
- **3000 WT**: Intumescent silicone with a UL firestop rating up to four hours
To ensure optimum security installation performance, be sure to use the watchdog of the industry: Belden® New Generation® cables.

A system failure, or interruption of signal, can be a catastrophic occurrence in any security installation. That's why you need Belden New Generation cables, a product line recognized the world over for its quality and reliability.

The New Generation line also represents one of the largest, most economical and up-to-date selections of multi-conductor and coaxial products on the market today: A full complement of cables for access control, CCTV, computer interconnect, alarm, fire alarm and other security applications — complete with water-blocked options for installation in intermittently wet environments.

New Generation cables also offer installer-friendly features such as:

- NEC riser and plenum rated; UL and C(UL) listed as applicable.
- A unique composite cable design, Access Control Banana Peel® strips away installation time and labor.
- Rip cords for easy jacket removal and sequential footage markings on the jacket to eliminate guesswork and waste.

For space savings and to help eliminate waste, many product codes also are available with Belden's new Belcoil® packaging — a revolutionary new tangle-proof packaging concept. So look to the top dog. Look to Belden for your next security installation.

Look to the leader... look to Belden.
When you need reduced size without reduced performance, you need the new Adaptatone® Millennium Mini-Mi™.

Low profile and low cost, Mini-Mi's modular design delivers the perfect solution for any application: speaker amplifier, stand-alone tone generation, or field-recorded voice operation. Weatherproof and available with RS485 connectivity and a UL 1971 rated strobe. And, Mini-Mi is compatible with Edwards' new MEDI™ Software for convenient signaling and scheduling from your laptop or desktop. All in a 6 in. X 5 in. footprint. Now it's easy to upsize your signaling performance when you Signal Responsibly® with Edwards.
Work. With the Reliability of Graybar. Relying on the right products at the right place at the right time is one thing — and Graybar delivers that. Relying on a partner to help increase inventory turns, increase labor efficiency and capitalize on opportunities is another thing altogether — and Graybar delivers that too.

That’s Graybar reliability, and that works to your advantage.
Astronomic Dial Timer Switch

**Intermatic, Inc.**

Timer self adjusts for seasonal changes. Automatically adjusts itself as the days grow shorter or longer.

**Features**

- Skipper Allows Control to be Skipped on Certain Days
- Carryover Maintains Preset Schedule During Power Outage
- The 3PST Configuration Allows Control of 3-Phase Lighting
- 3 Skipper Screws are Provided

Builders Chime Kits
Edwards Signaling and Security Systems
For use in new or existing single or two entrance homes, apartments, condominiums and offices.
Features
• Complete Installation Kit
• Two Entrance Models
• Brown Push Buttons Hide Effects of Weathering and Soiling
• 10V AC, 1.2 A
• Comes with Chime, Transformer and 2 Pushbuttons

Weatherproof Push Buttons
Edwards Signaling and Security Systems
Heavy die-cast housing construction for exterior use. Typical applications include use in push button panels, school signaling, machine start and stop and industrial signaling.
Features
• Surface Mount
• Normally Open Contacts
• Drilled and Tapped for 1/2 in. Conduit
• Gray Aluminum Finish

Low Voltage Industrial Push Buttons
Edwards Signaling and Security Systems
Low voltage, panel mount push buttons with large terminals. Available with an illuminated center for use in unlighted areas.
Features
• Polished Chrome or Brass
• Insulated for Mounting on Metal Cabinets
• Snap Fit
• Mounting Hole Dia. 5/8 in.
• Mounting Hole Depth 3/4 in.

Weatherproof Push Buttons - Outdoor Use
Edwards Signaling and Security Systems
Attractive high quality weatherproof push button for exterior use at home, apartment and office.
Features
• Surface Mount
• Solid Brass Construction
• Normally Opens Momentary Contacts
• Includes Bakelite Back Plate Threaded for 1/2 in. Conduit
